2.	7	6- Scope of Work	(ii)	Conducting site visit to the existing M-SIPS applicants wherever felt necessary to assess the ground level situation of manufacturing and investment.	Site visits are an important mechanism to assess the ground level situation. Having prior knowledge of the total number of visits to be conducted will help the agency in proper time management of the resources deployed for the services and will also allow the agency to design an appropriate work-approach methodology. We therefore request you to specify the total number of site visits which the agency is expected to conduct along with the time schedule, i.e., at which stage of the evaluation the visits are to be conducted.	Site visits may be need based.
3.	12	14.0- Evaluation and Selection Process	14.4	The selection of agencies will be done based on weightage of 25 (Technical Presentation): 75 (Financial)	Allocating only 25 marks to the competencies, past experience, proposed resources and approach & methodology of the bidder leaves a very small margin to assess the knowledge and skill of the bidder along with the quality of the	The clause is amended as given below: The selection of agencies will be done based on weightage of 75 (Technical Presentation): 25 (Financial)
