

Hands-on Training on Nanofabrication and Characterization Techniques

CeNSE, IISc, Bengaluru invites applications for “INUP-i2i Hands-on Training on Nanofabrication and Characterization Techniques”.

Selected participants will have an opportunity to learn various fabrication processes and get trained on state-of-the-art tools required for nanofabrication and characterization of nanoscale devices.

The two weeks program at CeNSE, IISc Bengaluru is funded by Ministry of Electronics and Information Technology, Government of India.

Eligibility: Selection Criteria: Young faculty members and scholars registered for PhD with research interest on nanoelectronics and related areas will be given the highest priority for selection.

Workshop Duration: 09-19 Oct 2023

To Apply: https://inup-i2i.org/inup_wrapper/home.php

Deadline: 26 Sep 2023
