Vacant Positions for Jammu & Kashmir, SeMT

Consultant-Technology Management

Job Description	
Position	Technology Management
Designation	Consultant
Department	SeMT
Reports To	State IT Secretary / Head of State designated Agency / Head – SeMT
Job Code	C/TM

Job Objective

The objective of this job is to assist the State Government on technological issues related to core infrastructure, MMPs and other e – governance projects

Primary Responsibilities

Design & Architecture

- In coordination with the Technology Department at NeGD, assist the State Government in defining the standards for application architecture, database design, development and infrastructure deployment
- Assist the State departments in technology selection, hand holding department staff from requirements to implementation.
- Study the status of IT Infrastructure of State and assist the State Government in coming up with a robust IT infrastructure to support the roll out of e – governance projects
- Analyze the existing/ proposed projects in regard to strategic control, cyber-security, disaster recovery and business continuity
- Ensure that individual project level initiatives are interoperable, standardized, scalable and secure across various areas of software, hardware and infrastructure
- Partner with the PeMTs and help them in adhering to technical standards/ architecture/ product and strategic control, specifications for the e – governance projects
- Ensure utilization of the common infrastructure being setup under NeGP for projects implementation at State level

- Work in emerging technologies / areas like AI, Blockchain, IoT, Big Data, Data Analytics, Augmented and Virtual reality etc. for the State projects and to build capability in the State / UT in these areas

Technical Appraisal

- Conduct technical appraisal of the various project reports received from the State Departments and technical evaluation of various proposals received from bidders.

Miscellaneous

- Assist State / UT in technical evaluations of external agency proposals related to implementation of various e – governance initiatives
- Assist State / UT in price negotiations related to IT goods procurement
- Support in monitoring/ help establish suitable network/ IT infrastructure monitoring system at the State level
- Help develop the capability in the areas of preparation of scope of work, carrying cost-benefit analysis amongst various technological and policy options, preparing RFPs, selection of implementing agencies, managing and getting the best out of implementing agencies and technical support so as to optimize the benefits.
- All interdependencies, overlaps, conflicts, standards, overarching architecture, interoperability, security, legal aspects etc. across projects as well as core and support infrastructure shared across several projects would fall under the purview of this team. The team will work under the State IT department but will provide support to all the Departments in the implementation of IT projects in the State / UT related to various projects under Digital India.
- Ensure that the requirements of State departments in matters like preparation of EoI / RFP/ Contracts / PPP and other related matters are suitably addressed.
- Formulate program management strategies in consultation with the State IT Department/IT Society/external consultants.
- Support the State Government in the roll out of awareness and communication efforts as part of the NeGP

In addition to above Primary Responsibilities the incumbent may be assigned any other task from time to time by State IT Secretary/ Head of Nodal Agency/Head SeMT
