Web Developer/HTML

MyGov is the citizen engagement platform of Government of India. It is an Independent Business Division under Digital India Corporation, a Section 8 company under Ministry of Electronics & Information Technology. Details about MyGov can be seen at https://MyGov.in .

MyGov is looking for **Web Developer/HTML** to join our team who would be responsible for creating high-quality HTML files based on the latest HTML5 and W3C standards.

The primary focus would be to use CSS (and CSS pre-processors, such as Less and Sass) to create web applications and app layouts that match designer visions at a range of screen resolutions, use ARIA and other HTML attributes to create websites that support accessibility options.

You will be under probation for the first 3 months from the date of joining. It is not mandatory for MyGov to absorb you or offer you regular contract after the completion of the probation period. The period of probation can be reduced or increased by MyGov and shall be solely based upon your performance.

After successful completion of initial contract period, regular contract will be given.

Please review the positions listed below and apply in the form given in this notification. MyGov is hiring experienced professionals for **Web Developer/HTML.**

Interested candidates may apply in this form.
