Information Sought (जानकारी मांगी):	I need answer to a few questions- 1. What are goals of MeitY/GoI for Data Center capacity to be established in India, in the next 3,5 and 10 Years? I would need the capacity in Megawatt. 2. I wish to know the present Data Center Capacity as recorded by MeitY in India. 3. I wish to know the commitments made by the GoI or private players (as per records of MeitY) for construction of Data Centers (tentative MW size and investment) 4. What are the approvals/clearances needed to build a Data Center? I need the list of regulations to be followed and approvals to be taken (if at a commercial scale) 5. Are there any funding or grants available for new Data Center startups to enter the ecosystem and how is the govt controlling the monopoly of Data Center private players? 6. I need a list of existing Data Centers (Govt and Privately owned in India) with MW capacity, location, tier of data center, investment done and land size of each of those data center. I need an exhaustive list of all Data Centers with these attributes included.
