4. Renaming of Guidelines for notifying Brownfield Clusters under M-SIPS scheme for ESDM as "Notified Electronics Manufacturing Clusters for the purpose of M-SIPS" vide no. 36(14)/2014-IPHW dated 07-05-2014

The policy for Modified Special Incentive Package Scheme (Modified-SIPS) cited as reference (1) above was notified in the Gazette on July 27th, 2012. The implementation guidelines cited as reference (2) above have also been published. Necessary guidelines for notifying areas/ clusters in which the incentives under Modified SIPS is available have been issued vide reference cited as (3) and (4) above.

2. Various representations have been received from industry associations, potential applicants and other stakeholders regarding improvements in the scheme. These suggestions have been examined and detailed consultations have been held with all stakeholders. Based on the same, the following amendments are proposed in the Modified SIPS policy. All other provisions remain unchanged.

3. **Extending Modified SIPS benefits to additional verticals**

3.1 The M-SIPS incentives are hitherto available to the verticals as mentioned in reference (1) above. It is proposed to expand the list of verticals for which Modified SIPS will be available. The additional list is at **Enclosure 1** of this notification.

4. **Simplifying process**

4.1 The incentives under the scheme will be available from the date of receipt of application subject to the condition that the additional incentives so calculated should be on a prospective basis (i.e. from the date of notification). Consequently, the period of 10 years for which an applicant is eligible for claiming incentives shall also be reckoned from the date of application. However, the incentives will be given to a unit only after it achieves threshold investment as required under the scheme and approval of the project by Competent Authority.

4.2 Based on further industry inputs, the revised thresholds for various industry units are proposed for unit to be eligible for incentives under the scheme. The revised thresholds for all project types are at **Enclosure 2** of this notification.

4.3 It is proposed to introduce Production Subsidy @ 10 % of the production turnover (ex-factory) for Fabrication and ATMP of Analog/ Mixed signal semiconductor chips, Power Semiconductors, OLEDs, LCD (LCD fabrication & glass substrate), Fabrication of Chip Components, Discrete Semiconductors, SPV (Polysilicon, ingots and/ or wafers, cells), LEDs and Manufacturing of PCBs, nano-Electronic components and LCM. It is intended

as an operational incentive. The existing provision of "reimbursement of Central Taxes and Duties" for Semiconductor Wafering, Logic Microprocessors, Digital Signal Processors (DSP) & Application Specific Integrated Circuits (ASICs), Memory, LCD Fabrication is proposed to be changed as "Production subsidy @ 10 % of the production turnover (ex factory)".

4.4 The incentives for Modified SIPS will be disbursed immediately after the threshold of investment has been achieved. Thereafter, the disbursements will be made on quarterly basis.

4.5 The scheme will be available to any viable unit as appraised by Appraisal Committee located in any industrial area notified by Centre/ State/ local authority. The practice of notifying areas wherein the incentives will be eligible is hereby dispensed with. The practice of having separate Technical Evaluation Committees will also be dispensed with.

5. Extension of Time Period for Applications

5.1 The time for making applications under the Revised Scheme is extended for a period of 5 years beyond the current expiry of the scheme in July, 2015.

6. For effective functioning of the revisions in the M-SIPS policy, a set of Guidelines may be issued by Department of Electronics and Information Technology separately.
