

## Citizens participate in an interactive webinar on Open Forge initiative of NeGD

The National e-Governance Division, Ministry of Electronics and Information Technology organised a webinar on Open Forge- Collaborate with Government on November 5, 2024. The webinar shed light on this unique initiative of the government which offers a platform for open collaborative development of e-governance applications.

The experts dwelled upon the possibilities of how this new collaborations on the platform can help usher in up-skilling, mentorship, open up new avenues, and lead to collaborative development of efficient government applications which can provide ease of living, ease of business, and ease of governance.

Hundreds of participants joined the webinar LIVE on Digital India's YouTube channel and asked questions which were answered by the experts. People enquired about various types of files that can be uploaded while working on the platform, how to submit tasks through Pull Request, skills required to participate in the initiative, tools and technology required to access OpenForge, and many more.
