In a paradigm shift from the past, Government of India has initiated the ‘Digital India’ programme with a vision to transform India into a digitally empowered society and knowledge economy. The major part of Digital India programme is “**Digital Payment**”. Demonetization has propelled the drive towards popularizing digital payments with the aim of offering benefits to the country. To further this, Ministry of Electronics and Information Technology (MeitY) has been given the task to evolve and lay down standards and policy guidelines, provide technical and handholding support, undertake capacity building, R&D, etc. and further evolve the Digital India vision. The aim is to enable all citizens to adopt digital transactions with ease.

The Government’s ambitious plan is to bring digital payments at par with offline payments and incentivize them. This will be an important measure to realize India's ambitions towards a less cash economy. The measures, once operationalised, will boost increase in income tax compliance with the creation of an electronic trail, reduce the cash handling cost in the system and encourage consumer habit for digital payments.

This digital boost to India’s economy has been accelerated by this Government’s historic work to drive digital payments. The Government is establishing a National Digital Payments Mission, to spread safe, convenient, and transparent digital payment mechanisms across India. The Government’s Digital Finance for Rural India: Creating Awareness and Access programme, executed under the Digi Dhan Abhiyan, have made 2 crore people financially literate in five months.
